SUMMARY

An Engineer who is curious and driven problem solver, loves turning ideas into meaningful solutions, loves exploring new possibilities, taking challenges and building things that make an impact on the real world.

SKILLS

- Programming Languages : Python, SQL, C, C++, Data Structures.
- Software Technologies : SDLC, CI/CD Pipelines, Git/Github, Object-Oriented Programming, API Design
- AI Technologies : LangChain, LangGraph, LangSmith, RAG, LLMs, Agentic Workflow Design.
- Data Technologies : Excel, PowerBI, Numpy, Pandas, Matplotlib, Seaborn.
- Machine Learning Technologies : Sklearn, Tensorflow.
- Other Technologies : ClaudeCode, Codex, Colab, VS Code.
- Soft Skills : Flexible and adaptable, Calm under pressure.

EDUCATION

Bachelor of Technology — Computer Science and Business Systems, OIST, Bhopal | 2021-2025 | CGPA: 7.98

Class XII (PCM) — Bright Career Higher Secondary School, MP Board, Pipariya (M.P.) 2021 | 90.2%

Class X — Bright Career Higher Secondary School, MP Board, Pipariya (M.P.) 2019 | 89.4%

PROJECTS

ChatMyVideo : Live

- Built and deployed, a multilingual RAG assistant for YouTube using Groq LLMs (LLaMA/GPT-OSS), FAISS, and HuggingFace embeddings.
- Scaled it to 500+ users across 200+ videos in 14 languages, achieving 95% response accuracy at ~1–1.5s average latency.

LangGraph review workflow : Demo

- Developed a LangGraph-based workflow model that can be used with any platform to automate the classification of review sentiment, tone, urgency, and issue type, then it helps in routing each review to generate a context-aware LLM response, improving automated customer review handling.

CERTIFICATIONS / INTERNSHIPS

- AIML Developer intern at Intellostack (1 year) — TIH IIT Patna Certification.
- AI Data Scientist — PMKVY Skill India Center.
- Python — Cisco.

ACHIEVEMENTS

- Won 1st place among 35 competing teams in a Project Poster Presentation organized by Oriental Group, as part of a 4-member team, building the prediction model for a plant disease detection project.
- Managed a team of 15 members across multiple college events as a core team member of Pixela Club, a photography club with 60+ members.

EXTRACURRICULAR

- Esports (Valorant): competitive play developing strategic thinking, rapid decision-making, and cross-functional teamwork.
- Volleyball: regular team sports participation involving leadership, coordination, and collaborative problem-solving under pressure.
